

COVID-19 ADDENDUM

Our goal is to make it a reality for as many guests as possible to have positive and life changing experiences at Camp Henry this fall. As we continue to navigate the path through (and hopefully beyond) the COVID-19 pandemic, we realize that it will likely be necessary to customize our practices and protocols to meet the unique needs, requests, and expectations for each of our visiting retreat groups. Please know that we are eager to partner with you to find a path forward that will allow us to safely and warmly welcome your group to camp this fall.

Over the past few months we have found that the 2 most helpful COVID-19 mitigation strategies at Camp Henry have included:

1. **Keeping COVID-19 Out of Camp**
2. **Spending as much time as possible Outdoors**

Keeping COVID-19 Out of Camp

While we certainly can not provide a 100% guarantee that COVID-19 won't be present at Camp Henry, our efforts to help keep COVID-19 from coming to Camp Henry have included:

- Asking all of our Camp Henry Staff Members to be fully vaccinated
 - While 2 of our staff members are currently medically unable to receive the vaccine, 97% of our staff members are fully vaccinated
- Asking all of our Summer Campers to either be fully vaccinated or to have a negative COVID-19 test result prior to coming to camp
 - We recommend that all overnight Retreat groups consider asking their participants to either be vaccinated or to have a negative test result prior to camp
 - Rapid COVID-19 tests are often available for free through your local Health Department and/or Intermediate School District
- Taking temperatures and conducting a health screening daily for all campers, guests, and staff members
 - We recommend that all Retreat groups conduct temperature checks and health screenings prior to driving to Camp Henry, to determine if participants are eligible to participate at camp.
 - Upon arrival, Camp Henry staff will assist with temperature checks and symptom screening for all guests, unless group leaders confirm that these checks were done immediately prior to heading to camp
 - Anyone with a temperature over 100.4 and/or COVID-19 symptoms will not be allowed to participate at camp
 - Guests should stay home, or should be sent home from camp, if they are experiencing any of the following symptoms not explained by a known or diagnosed medical conditions:
 - **ONE of the following**
 - Fever of 100.4 degrees or above
 - Shortness of breath
 - New cough
 - Loss of taste or smell
 - **OR TWO of the following**
 - Diarrhea/Vomiting/Nausea
 - Body Aches
 - Headache
 - Sore throat
 - Extreme Tiredness/Fatigue
 - Chills
 - Congestion or Runny Nose

COVID-19 ADDENDUM CONT.

Spending Time Outdoors

Programs and activities will be scheduled outside or in open air settings whenever possible. We are extremely fortunate to have over 200 acres where guests and participants can enjoy time outdoors in a beautiful natural environment. In addition, our 2 largest gathering spaces at Camp Henry, the Theater and the Rec Pavilion, each have 4 walls that are able to completely open, providing amazing open-air settings.

Food Service

We provide family style meals with additional "grab n' go" sides. Before entering the Dining Hall, guests will be asked to wash their hands. After hand washing, guests will go up to the kitchen windows and receive a tray of food for their table. We are excited to partner with our Guest and Retreat groups and can certainly make modifications and adjustments to our Food Service procedures and protocols if needed as long as any changes are requested and discussed at least 2 weeks in advance.

Lodging

There are currently no restrictions in place regarding the capacity limits of our cabins and lodges. Each cabin will have cleaning and sanitizing supplies that your group is welcome to use. Sleeping spaces are arranged to allow for either a physical barrier between guests or at least 6 feet of separation. Common areas like bathrooms will be cleaned and sanitized daily. Each overnight group has their own unique and designated bathroom(s).

Programming

Programs and activities will be scheduled outside or in open air settings whenever possible. Camp Henry staff will follow any applicable local and state guidelines regarding social distancing while working with your group. Hand sanitizer will be available in every building and at every program area. The program staff will monitor the sanitation of supplies, and will sanitize equipment and supplies on a regular basis.

Temperature & Symptom Checks

We request that temperature and symptom screening occur at camp each morning prior to breakfast for all overnight guests. We will also conduct temperature and symptom checks for anyone joining or visiting your group during your retreat. Anyone with a temperature over 100.4 and/or COVID symptoms will not be allowed to participate and will be removed from camp.

Face Coverings

Guests will be asked to bring a face covering with them to camp. While almost all programs and activities will be scheduled to occur outside or in open air buildings, if we need to plan indoor activities due to inclement weather, we will ask all guests to wear a mask while indoors. While participating in outdoor activities, face coverings are suggested, in particular for guests that are not fully vaccinated or that have regular contact with someone that has a vulnerable health condition. Face coverings will be required at Camp Henry if we are experiencing severe weather and we are required to seek shelter in an enclosed area. Camp Henry can help provide additional face coverings as necessary should this situation occur.

Let's Do This

Please let us know what questions you might have and how we can partner with you and your group to plan an amazing experience for you and your group.
