

COVID-19 ADDENDUM

As we continue to navigate the path through (and hopefully beyond) the COVID-19 pandemic, we realize that it will likely be necessary to customize our practices and protocols to meet the unique needs, requests, and expectations of each of our visiting retreat groups. Please know that we are eager to partner with you to find a path forward that will allow us to safely and warmly welcome your group to camp this fall.

Over the past few months we have found that the 2 most helpful COVID-19 mitigation strategies at Camp Henry have included:

1. Keeping COVID-19 Out of Camp
2. Spending as much time as possible Outdoors

Keeping COVID-19 Out of Camp

While we certainly can not provide a 100% guarantee that COVID-19 won't be present at Camp Henry, our efforts to help keep COVID-19 from coming to Camp Henry have included:

- Asking all of our Camp Henry Staff Members to be fully vaccinated
 - While 1 staff member is currently medically unable to receive the vaccine, 99% of our staff members are fully vaccinated
- Encouraging guests to stay home, or be sent home from camp, if they are experiencing any of the following symptoms not explained by a known or diagnosed medical condition:
 - ONE of the following
 - Fever of 100.4 degrees or above
 - Shortness of breath
 - New cough
 - Loss of taste or smell
 - OR TWO of the following
 - Diarrhea/Vomiting/Nausea
 - Body Aches
 - Headache
 - Sore throat
 - Extreme Tiredness/Fatigue
 - Chills
 - Congestion or Runny Nose

Spending Time Outdoors

Programs and activities will be scheduled outside or in open air settings whenever possible. We are extremely fortunate to have over 200 acres where guests and participants can enjoy time outdoors in a beautiful natural environment. In addition, our 2 largest gathering spaces at Camp Henry, the Theater and the Rec Pavilion, each have 4 large walls that are able to open, providing amazing open-air settings.

COVID-19 ADDENDUM CONT.

Food Service

We provide family style meals with additional, "grab n' go," sides. Before sitting down in the Dining Hall, guests will be asked to wash their hands. After hand washing, guests will go up to the kitchen windows and receive a tray of food to share around their entire table.

We can certainly make modifications and adjustments to our Food Service procedures and protocols as long as any changes are requested and approved at least 2 weeks in advance.

Lodging

There are currently no COVID restrictions in place regarding the capacity limits of our cabins and lodges. Sleeping spaces are arranged to allow for either a physical barrier between guests or at least 6 feet of separation head to head. Common areas like bathrooms will be cleaned and sanitized on a regular basis.

Programming

Programs and activities will be scheduled outside or in open air settings whenever possible. Camp Henry staff will follow any applicable local and state guidelines regarding social distancing while working with your group. Hand sanitizer will be available in every building and at every program area. The program staff will monitor the sanitation of supplies, and will sanitize equipment and supplies on a regular basis.

Face Coverings

Camp Henry does not require our guests to wear masks when they are visiting, but we will accommodate our Guest and Retreat groups who request to wear masks indoors to create the best camp experience for them.

Let's Do This

Please let us know what questions you might have and how we can partner with you and your group to plan an amazing experience.
